Share your experience so that we may spread the word about your success and how you beat infertility!

Prior to seeing Dr Acacio I had been told by multiple Dr's that nothing appeared to be off or wrong with my body and we had to just "keep trying." However, Dr Acacio found an imbalance in key hormones that likely had been preventing ovulation and may have also contributed to previous miscarriages. Based on this, we came up with a plan for medication and ultimately an IUI, which was successful on the 1st try! After 2 years of "trying" I had a successful pregnancy. My experience with Dr Acacio & his team was very positive from the initial consult, to accommodating my busy schedule, to billing/insurance issues + ultimately the treatment. Thank you for your professional care and giving us the opportunity to grow our family!

I (WE), Heister Ritzan GIVE ACACIO FERTILITY CENTER PERMISSION TO USE MY (OUR) TESTIMONY FOR SOCIAL MEDIA, MARKETING AND ADVERTISING PURPOSES.
