We came to Dr. Acacio after a year and a half of trying ~~over~~ unsuccessfully to have a baby. He was able to identify our issue right away and assured us we could have a baby in our future. Our 1st egg retrieval amounted to zero blasts as they just weren't strong enough. The entire office was there for us both emotionally and professionally during this hard time. After being reassured by the Dr. that it was no fault of our own we decided to try again! We had a successful egg retrieval and 5 days later transferred 2 of our healthiest embryos. Fast forward to almost a year later and we now have our beautiful twins - Aria Jane and Zekiel Kane. I had a very smooth pregnancy and a natural delivery with both babies over 6 lbs. I couldn't have asked for a better ending to our family story! Thank you AFC!!! 😊
