Share your experience so that we may spread the word about your success and how you beat infertility!

My husband and I started trying to expand our family in July 2015. We thought it wouldn't be an issue because we conceived our son naturally and fast. Fast forward to countless obgyn appointments and bloodwork showing no issues and couldn't figure out what was wrong. My obgyn suggested we see Dr. Acacio. My first meeting with him was over an hour! I knew he was the doctor for us! He had a whole plan mapped out for us and knew how to get started. After 2 years of unexplained infertility and our first round of IVF and frozen embryo transfer, we are happy to announce we are pregnant with TWINS! I cannot recommend Dr. Acacio and his team enough. Amazing women upfront (Wendy so amazing and sweet), diligent nurses always wanting to help and calm you (Sylvia who is always on call and is so patient and answers every question honestly), Norreen (always making me laugh!! when I wanted to cry!) and of course Dr. Acacio, so nice, patient, thorough and brilliant! Best facility ever, and we plan to come back for more!

I (WE), Matthew & Allyse Summers GIVE ACACIO FERTILITY CENTER PERMISSION TO USE MY (OUR) TESTIMONY FOR SOCIAL MEDIA, MARKETING AND ADVERTISING PURPOSES.
